Body Lotion

is one of EsteticaVibrazionale's cosmetics based on **super coherent¹ water** and top quality active elements.

Action

Thanks to an innovative technology the water forming this extraordinary product has been made super coherent in order to increase to the nth power the active principles in it dissolved.

Body Lotion water, able to permit the activation of filamentous muscles' proteins in treated areas, have been entered in the water's crystal. Immediately after applying Body Lotion the muscle swells thanks to its stimulating action on blood circulation. Muscles' fibres react by increasing in elasticity, tone, volume and getting stronger. Contraction and de-contraction get better as much as to help after training muscles recovery. Body Lotion also helps in reducing tissue's edema, in tonifying and draining the skin leaving it velvety and firm. Sprayed on the body it acts as a general antioxidant, if used on the face it gives an excellent lifting effect.

Active Elements

Water: it is the leading element in EV's cosmetics. The super coherence of its structure allows to greatly increase the Vibrational Cosmetic's energetic and functional power, assuring the best results. Being so specifically treated, this Water also enhances the effects of the active elements it carries.

Mangosteen Garcinia extract owes its efficacy to the presence of xanthenes in its structure. Xanthenes are biological active compounds recently discovered which have a powerful antioxidant and anti-radical action.

¹Quantum electrodynamics (QED) brings forward a very interesting prospect. Water in leaving creatures, when in contact with biological matter, gets structured in an organized and coherent way. The greater is the coherence of the structure the best is the energy processing in cellular structures. Super coherence is the exaltation of this oxygen conveyance, which, so organized, allows to elaborate a better cells energetic quality.

Horse Chestnut – extract. The extract, obtained from seeds, is made of a phytocomplex rich with saponins and flavonoids. It reduces capillary permeability and increases strength and elasticity. It has draining, refreshing, anti-reddening and lenitive action.

Birch extract is largely used in cosmetic because of its remarkable astringent, antiseptic and purifying properties. Thanks to its high amount of flavonoids, Birch has also decongestive and anti-reddening properties as much as a good antiseptic action. Excellent de-toxin, it is very effective in cellulite treatment.

Ivy – hydro-alcoholic extract is used to fight skin blemishes due to cellulite for its astringent and vasoconstrictor actions. Rich in saponins, it has a remarkable tonic effect on any part of the body that shows signs of relaxation.

Hamamelis Distilled Aromatic Flower Water. Hamamelis Virginiana (Witch Hazel) is a very precious plant appreciated for its various beneficial effects. Excellent remedy for sun burns, it has astringent properties, relieves inflammations and promotes tissue healing.

How to use

Nebulize it on interested clean skin areas twice a day. In case of deep affections it may be helpful to intensify applications. Effects are visible since the first few applications. Regular and rhythmic use reinforces the results achieved and prevents degenerative skin processes.
